Profile Summary

Dedicated Software Engineer with 2.5 years of experience in developing and maintaining web applications seeking a challenging position to collaborate with a talented team on innovative projects that help me to attain greater of my career.

Work Experience

Software Engineer @ Persistent Systems Ltd.

Pune, India – January 2022 to Present

- Developed an **Emotion Health Monitoring System** for timely emotional state data, aiding early intervention to prevent mental health issues using pre-trained transformer model.
- Created **Django** based internal application for managing attendance by integrating Microsoft graph API through OAuth.
- Filtered and Segmented large dataset of customers based on their preference of choosing insurance product using **Machine learning** algorithms.
- Actively Engaged in **Python data science program** facilitated by Ethans Tech, focusing on advance techniques for data analytics, Machine learning and Deep learning.

Project Details

1 : Indian Card Payment Analysis (Python + ML)

Our project leverages Machine Learning within the Django framework to seamlessly connect multiple webpages. Through predictive analytics and graphical representation, users gain valuable insights to make informed decisions when choosing the most suitable bank for their investments.

2 : Account Operational Excellence System (Python + Django)

This Project is based on Employee day to day attendance so Admin can able to track the employee attendance based on their working hours.

Education

Bachelor of Engineering, Sinhgad College of Engineering Pune | Computer science | 2018-2022 | CGPA: 8.71/10

Senior Secondary (XII), Brahma Valley Junior Science college Nashik | HSC Board | Year of completion: 2018 | Percentage – 71.08%

Achievements

- Got High Five – Team Award for working on the time report tool
- 1st Runner-up in Persistent Annual Technothon for Gems Hi-tech BU
- Winner of logo quiz competition at SCOE, Pune.

Key Skills and Abilities

Programming Languages: Python, Java, C++, HTML, CSS.

Frameworks: Django, Flask, Django Rest Framework.

Database: Microsoft Sql Server.

Libraries: Numpy, Pandas, Seaborn, Matplotlib, Tensorflow.

Deep Learning Techniques: ANN, RNN, CNN, RBM's & NLP.

Other Skills

MySQL
OOPS
GEN-AI
Data Science
Machine Learning
Data Preprocessing
Feature Engineering

Tools

Visual Studio
SQL Server
Zabbix
Ranorex
Git
AWS

OS

Windows

Certifications

Python For Data Science, AI & Development – IBM

Software AG Certified ARIS
Process Mining Professional

Microsoft Certified: Azure
Fundamentals AZ-900
